Tower

Sydney MLC Building

Testimonial

"I studied my Certificate II in Information Technology and Advanced Diploma of Information Technology (Network Security) at Aces Centre College. We had many hands-on workshops on different topics including CISCO router setup, Firewalls, Linux and Windows Servers to PMBOK/PMI methodologies. The teachers and staff were very supportive. During my study at Aces Centre I was offered a job in IT support in the industry. The knowledge and skills gained at Aces Centre helped me to proceed with the job successfully. I have also received admission to a Bachelor degree in IT from **UTS** and **University of Sydney**. I recommended Aces Centre college to my brother who is planning to start next year." **Pouya, 2010**
